Boréal Marché — the system in 75 seconds

Le système en 75 secondes · démonstration du service en ligne, commit 7e67601

1. **Retention** — who is about to stop ordering, and the coupon the model *proposes*
2. **Basket** — what else belongs in this basket, and the rule that says why
3. **Assistant** — a French question answered from our policy, with its source
4. **Monitoring** — drift, data quality and latency computed from the live prediction log

Live, tested, governed

En service, testé, gouverné

Retention, held-out quarter	PR-AUC **0.8472** vs 0.7123 best heuristic
Campaign vs coupon-to-everyone	**$120k–$217k a year** (assumed 20% save rate)
Recommendations	**8.6×** better than best-sellers
Total cloud spend	**$3.05**
